

EZ Split

Patent pending

Designed for Homeowners

The EZ Split log splitter is powerful, portable, easy to operate, and stores in a minimal space. It is perfect for homeowners with fireplaces and wood stoves, and ideal for transporting to hunting, fishing, or camping sites in a van, SUV, or pick-up.

PCLS04
*Portable, Compact
Log Splitter*

- One Third the Size*
- One Fourth the Weight*
- Twice the Convenience*
- 3.5 HP B&S Engine
- 18" Log Opening
- Power to Split Logs up to 18" in Diameter
- Lightweight at 138 lbs.

* Compared to a conventional size log splitter

PCLS04 Portable, Compact Log Splitter

BRAVE – the finest log splitter on the market today!

- **Quality Construction** – The EZ Split is built with all steel components, powder coat finish, and the same high quality that goes into all Brave log splitters
- **Splitting Power** – The solid rail design, horizontal shaft commercial engine, and powerful hydraulics deliver power to split hardwood logs up to 18" in diameter and lengths up to 18".
- **Compact Size** – This unit is ideal for homeowners, campers, hunters, fishermen, and everyone who needs maximum splitting power with the convenience of portability and ease of storage in garage or work shed.
